

Child Welfare Trauma Training Toolkit (CWTTT) Series Overview

CONSULTATION
FOR
SUPERVISORS

Training Preparation with Leadership

Trauma 101

Length: 2 half-day trainings or 1 full-day training

Audience: Support Staff, Caseworkers, Supervisors, and Leadership

Description:

An overview of the types of trauma, the short- and long-term impacts of trauma on children and parents, and information on resilience. Reviews intersection of race, culture, and trauma. Designed for all child welfare staff.

TICW 101

Description:

A foundational overview of the Essential Elements of a Trauma-Informed Child Welfare System for all child welfare staff.

TICW Training for Supervisors

Length: 1 full-day training

Audience: Supervisors

Description: An in-depth focus on the Essential Elements of a TICW System with a focus on learning concrete trauma-informed strategies. The goal is for supervisors to increase their trauma-informed skills as well as to support their caseworkers. The learning is supported by a series of consultation calls.

TICW Training for Caseworkers

Length: 1 full-day training

Audience: Caseworkers

Description: An in-depth focus on the Essential Elements of a TICW System with a focus on learning concrete trauma-informed strategies to use with clients within their daily work.
